## **DETAILED ACTION**

### **Election/restriction**

Newly submitted claims 3-180 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: original claimed claims, 1-2, are directed to a decoder for adjusting voice signal separately from the background audio signal.

Newly submitted claims 3-180, are directed to 1) a video entertainment system that outputs motion picture and an audio signal having one or more channel of spatial information and 2) a system for generating amplitude ratio of different signals.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 3-180 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendments filed on 9/6/02 and 9/20/02 and canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention are non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because they recite a patentably distinct invention.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in

order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
